BANK OF AMERICA MALAYSIA BERHAD (Incorporated in Malaysia)

STATEMENT OF CASH FLOWS
FOR THE FINANCIAL PERIOD 31 MARCH 2022

1 BASIS OF PREPARATION

The unaudited condensed interim financial statements of the Bank have been prepared in accordance with the requirements of Malaysian Financial Reporting Standard ("MFRS") 134 "Interim Financial Reporting" issued by the Malaysian Accounting Standards Board ("MASB").

The unaudited condensed interim financial statements should be read in conjunction with the Bank's audited financial statements for the financial year ended 31 December 2021. The explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant for an understanding of the changes in the financial position and performance of the Bank since the financial year ended 31 December 2021.

The unaudited condensed interim financial statements have been prepared under the historical cost convention. The accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the most recent audited financial statements for the year ended 31 December 2021, except as follows:

NEW AND AMENDED STANDARDS ADOPTED BY THE BANK

Effective for annual periods beginning on 1 January 2021.

Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16 - Interest rate Benchmark Reform - Phase 2

The Phase 1 amendments, which was effective on 1 January 2020, provided temporary reliefs from applying specific hedge accounting requirements to relationships affected by uncertainties arising as a result of IBOR reform. The Phase 2 amendments address issues that arise from the implementation of the reforms, including the replacement of one benchmark with an alternative one.

The Phase 2 amendments provide practical expedient allowing entities to update the effective interest rate (for instruments measured at amortised cost, lessees and insurers applying the temporary exemption from MFRS 9) to account for any required changes in contractual cash flows that is a direct consequence of IBOR reform. This results in no immediate gain or loss recognised in profit or loss.

The Phase 2 amendments require entities to update the hedge documentation to reflect the changes required by the IBOR replacement. These amendments also provide reliefs that enable and require entities to continue hedge accounting in circumstances when changes in hedged items and hedging instruments are solely due to IBOR reform.

The other amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

Amendments to MFRS 16 'COVID-19-Related Rent Concessions

In 2020, MFRS 16 "Leases was amended to provide an optional practical expedient to the lessees on accounting for COVID-19 related rent concessions, such as rent holidays and temporary rent reductions for which payments are originally due on or before 30 June 2021.

The adoption of this standard is not expected to have any significant impact to the Bank.

NOTES TO THE FINANCIAL STATEMENTS FOR 31 MARCH 2022

STANDARDS AND AMENDMENTS TO EXISTING STANDARDS BUT NOT YET EFFECTIVE

Amendments to MFRS 9 Financial Instruments: Fees in the '10%' Test for Derecognition of Financial Liabilities (effective 1 January 2022)

When entities restructure their loans with the existing lenders, MFRS 9 requires management to quantitatively assess the significance of the difference between cash flows of the existing and new loans (commonly known as the '10% test').

This amendment to MFRS 9 clarifies that only fees paid or received between the borrower and the lender are included in the 10% test. Any fees paid to third parties should be excluded. This amendment will impact the result of the 10% test and accordingly affect the amount of gain or loss recognised in the income statements.

An entity shall apply the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The adoption of this standard is not expected to have any significant impact to the Bank.

Amendments to MFRS 3 'Reference to Conceptual Framework' (effective 1 January 2022)

This standard replaces the reference to Framework for Preparation and Presentation of Financial Statements with 2018 Conceptual Framework. The amendments did not change the current accounting for business combinations on acquisition date.

The amendments provide an exception for the recognition of liabilities and contingent liabilities should be in accordance with the principles of MFRS 137 'Provisions, contingent liabilities and contingent assets' and IC Interpretation 21 'Levies' when falls within their scope. It also clarifies that contingent assets should not be recognised at the acquisition date.

The amendments shall be applied prospectively.

The adoption of this standard is not expected to have any significant impact to the Bank.

Amendments to MFRS 116 'Proceeds before intended use' (effective 1 January 2022)

This standard prohibits an entity from deducting from the cost of a property, plant and equipment the proceeds received from selling items produced by the property, plant and equipment before it is ready for its intended use. The sales proceeds should instead be recognised in profit or loss.

The amendments also clarify that testing whether an asset is functioning properly refers to assessing the technical and physical performance of the property, plant and equipment.

The amendments shall be applied retrospectively. The adoption of this standard is not expected to have any significant impact to the Bank.

Annual Improvements to Illustrative Example accompanying MFRS 16 'Leases: Lease Incentives' (effective 1 January 2022)

The amendments removed the illustration on the reimbursement relating to leasehold improvements by the lessor to avoid potential confusion as the example had not explained clearly enough the conclusion as to whether the reimbursement would meet the definition of a lease incentive in MFRS 16.

The adoption of this standard is not expected to have any significant impact to the Bank.

NOTES TO THE FINANCIAL STATEMENTS FOR 31 MARCH 2022

Amendments to MFRS 137 'onerous contracts—cost of fulfilling a contract' (effective 1 January 2022)

This standard clarifies that direct costs of fulfilling a contract include both the incremental cost of fulfilling the contract as well as an allocation of other costs directly related to fulfilling contracts. The amendments also clarify that before recognising a separate provision for an onerous contract, impairment loss that has occurred on assets used in fulfilling the contract should be recognised.

The amendments shall be applied to contracts for which the entity has yet to fulfil all its obligations at the beginning of annual reporting period in which the amendments are first applied.

Comparative information is not restated.

The adoption of this standard is not expected to have any significant impact to the Bank.

Amendments to MFRS 101 'Classification of liabilities as current or noncurrent' (effective 1 January 2023)

This standard clarify that a liability is classified as noncurrent if an entity has a substantive right at the end of the reporting period to defer settlement for at least 12 months after the reporting period. If the right to defer settlement of a liability is subject to the entity complying with specified conditions (for example, debt covenants), the right exists at the end of the reporting period only if the entity complies with those conditions at that date. The amendments further clarify that the entity must comply with the conditions at the end of the reporting period even if the lender does not test compliance until a later date.

The assessment of whether an entity has the right to defer settlement of a liability at the reporting date is not affected by expectations of the entity or events after the reporting date.

The amendments shall be applied retrospectively. The adoption of this standard is not expected to have any significant impact to the Bank.

Amendments to MFRS 112 'Deferred Tax related to Assets and Liabilities arising from a Single Transaction' (effective 1 January 2023)

This standard clarify that the initial exemption rule does not apply to transactions where both an asset and a liability are recognised at the same time such as leases and decommissioning obligations. Accordingly, the Bank is required to recognise both deferred tax assets and liabilities for all deductible and taxable temporary differences arising from such transactions.

The adoption of this standard is not expected to have any significant impact to the Bank.

Amendments to MFRS 101, MFRS Practice Statement 2 and MFRS 108 on disclosure of accounting policies and definition of accounting estimates (effective 1 January 2023)

Amendments on disclosure of accounting policies.

The amendments to MFRS 101 require companies to disclose material accounting policies rather than significant accounting policies. Entities are expected to make disclosure of accounting policies specific to the entity and not generic disclosures on MFRS applications. The amendment explains an accounting policy is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Also, accounting policy information is expected to be material if, without it, the users of the financial statements would be unable to understand other material information in the financial statements.

Accordingly, immaterial accounting policy information need not be disclosed. However, if it is disclosed, it should not obscure material accounting policy information. MFRS Practice Statement 2 was amended to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

NOTES TO THE FINANCIAL STATEMENTS FOR 31 MARCH 2022

Amendments on definition of accounting estimates

The amendments to MFRS 108, redefined accounting estimates as "monetary amounts in financial statements that are subject to measurement uncertainty". To distinguish from changes in accounting policies, the amendments clarify that effects of a change in an input or measurement technique used to develop an accounting estimate is a change in accounting estimate, if they do not arise from prior period errors. Examples of accounting estimates include expected credit losses; net realisable value of inventory; fair value of an asset or liability; depreciation for property, plant and equipment; and provision for warranty obligations.

The adoption of this standard is not expected to have any significant impact to the Bank.

AUDITOR'S REPORT ON PRECEDING ANNUAL FINANCIAL STATEMENTS

The auditor's report on the financial statements for the preceding financial year ended 31 December 2021 was not subject to any qualification.

3 SEASONAL OR CYCLICALITY FACTORS

2

The business operations of the Bank have not been affected by any material seasonal or cyclical factors.

UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE OR INCIDENCE

There were no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Bank during the financial period ended 31 March 2022.

5 CHANGES IN ESTIMATES

There were no significant changes in estimates arising from prior financial period/year that have a material effect on the financial results and position for the financial period ended 31 March 2022.

6 ISSUANCE AND REPAYMENTS OF DEBTS AND EQUITY SECURITIES

There were no cancellations, repurchase, resale or repayments of debt and equity securities during the current financial period under review.

25 SIGNIFICANT EVENTS DURING THE FINANCIAL PERIOD

The Bank continues to take actions to mitigate the impact due to the coronavirus outbreak on the Bank. In arriving at the ECL for the current financial period, the Bank has appropriately considered reasonable and supportable information that was relevant and available without undue cost or effort. Refer to Note 10 and Note 24 for the results of the ECL.

26 SIGNIFICANT EVENTS SUBSEQUENT TO THE BALANCE SHEET DATE

There were no significant events subsequent to the balance sheet date which have not been disclosed in these condensed interim financial statements.

27 CHANGES IN COMPOSITION OF THE BANK

There were no significant changes in the composition of the Bank for the financial period ended 31 March 2022.

28 SEGMENTAL REPORTING ON REVENUE, PROFIT AND ASSETS

Segmental reporting has not been prepared as there are no other segments other than the commercial banking segment.

29 TAXATION

There are no material changes in the profit before taxation for the financial period reported as compared with the preceding financial period, which have not been disclosed in these condensed interim financial statement.

30 DIVIDENDS

There were no dividends paid or declared for the financial period ended 31 March 2022 .

Total capital ratio	54.125%	47.272%

Total capital and capital adequacy ratios of the Bank are computed in accordance with BNM's Capital Adequacy Framework (Capital Components) guidelines issued on 9 December 2020. The Bank has adopted the Standardised Approach ("SA") for Credit Risk and Market Risk and Basic Indicator Approach ("BIA") for Operational Risk.

NOTES TO THE FINANCIAL STATEMENTS FOR 31 MARCH 2022

33 FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments comprise financial assets, financial liabilities and off-balance sheet financial instruments. Fair value is the amount at which a financial asset could be exchanged or a financial liability settled, between knowledgeable and willing parties in an arm's length transaction. The information presented herein represents the estimates of fair values as at the balance sheet date.

Where available, quoted and observable market prices are used as the measure of fair values. Where such quoted and observable market prices are not available, fair values are estimated based on a range of methodologies and assumptions regarding risk characteristics of various financial instruments, discount rates, estimates of future cash flows and other factors. Changes in the uncertainties and assumptions could materially affect these estimates and the resulting fair value estimates.

A range of methodologies and assumptions had been used in deriving the fair values of the Bank's financial instruments at balance sheet date.

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, as derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The following table presents the Bank's financial assets and liabilities that are measured at fair value.

BANK OF AMERICA MALAYSIA BERHAD (Incorporated in Malaysia)

STATEMENT OF DECLARATION

To the best of our knowledge, the accompanying Statement of Financial Position of Bank of America Malaysia Berhad as at 31 March 2022, and the related Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows and explanatory notes for the period ended on that date had been prepared from the Bank's accounting and other records and nothing has come to our attention that causes us to believe that the condensed interim financial statements are not presented fairly in all material aspects in accordance with the Malaysian Accounting Standards Board ("MASB") approved accounting standards in Malaysia for entities other than private entities and Bank Negara Malaysia Guidelines.

For and on behalf of, Bank of America Malaysia Berhad

Chief Financial Officer Wong Poh Leng 26 April 2022
