EXPLANATORY NOTES

1 BASIS OF PREPARATION

On 19 November 2011, the Malaysian Accounting Standard Board ("MASB") issued the Malaysian Financial Reporting Standards (hereinafter known as MFRSs or the MFRS framework) for the application in the annual periods beginning on or after 1 January 2012, with the exception of entities subject to the application of MFRS 141 Agriculture and/or IC Interpretation 15 Agreements for the Construction of Real Estate. Financial Statements that are drawn up in accordance with the new MFRS framework will be equivalent to financial statements prepared by other jurisdictions which adopt the International Financial Reporting Standards ("IFRS").

The unaudited condensed interim financial statements of the Bank for the third financial quarter ended 30 September 2012 have been prepared in accordance with MFRS 134 "Interim Financial Reporting" issued by the MASB. In adopting the new framework, the Bank has also applied provisions in MFRS 1 "First-time adoption of MFRS" applicable to preparation of interim financial statements.

The Bank's interim condensed financial statements should be read together with the Bank's audited financial statements for the financial year ended 31 December 2011. The accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the last audited financial statements and are in compliance with the MFRS framework except as follows:

(i) MFRS 139 - Financial Instruments: recognition and measurement

As of 31 December 2011, the Bank maintained collective assessment allowance at 1.5% of total outstanding loans, net of individual assessment allowance, in accordance with the transitional provisions prescribed in Bank Negara Malaysia's Guidelines on "Classification and Impairment Provisions for Loans/Financing" issued on 8 January 2010 and subsequently updated on 26 January 2010 and 17 December 2010.

Effective for financial periods beginning on or after 1 January 2012, BNM has removed the above transitional provision to comply with the requirements of MFRS 139 "Financial Instruments: recognition and measurement".

Under MFRS 139, loans, advances and financing which are not individually significant are collectively assessed using the Probability of Default ("PD") approach. If it is determined that no objective evidence of impairment exists for an individually assessed loan, the loan is included in the group of loans with similar credit risk characteristics for collective impairment assessment. Collective assessment allowance is estimated base on PD of the total Risk Weighted Exposure at Default. Loans identified for collective assessment are grouped and assigned a PD based on the Bank's Internal Credit Risk Ratings for borrowers. Collective assessment allowance is estimated by applying the assigned PD to the total risk weighted Exposures At Default of each group of loans.

Pursuant to Paragraph 13.1 of BNM's Guidelines on "Classification and Impairment Provisions for Loans/Financing" issued on 9 November 2011, the profit and loss impact arising from the PD approach has been reflected under Regulatory Reserve until the model is validated and back-tested by independent external party.

EXPLANATORY NOTES

2 AUDITOR'S REPORT ON PRECEDING ANNUAL FINANCIAL STATEMENTS

The auditor's report on the financial statements for the preceding financial year ended 31 December 2011 was not subject to any qualification.

3 SEASONAL OR CYCLICALITY FACTORS

The business operations of the Bank have not been affected by any material seasonal or cyclical factors.

4 UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE OR INCIDENCE

There were no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Bank during the financial third guarter ended 30 September 2012.

5 CHANGES IN ESTIMATES

There were no significant changes in estimates arising from prior financial period/year that have a material effect on the financial results and position for the financial third quarter ended 30 September 2012.

6 ISSUANCE AND REPAYMENTS OF DEBTS AND EQUITY SECURITIES

There were no cancellations, repurchase, resale or repayments of debt and equity securities during the current financial third quarter under review.

24 SIGNIFICANT EVENTS DURING THE FINANCIAL PERIOD

There were no significant events during the financial third quarter that have not been disclosed in these condensed interim financial statements.

25 SIGNIFICANT EVENTS SUBSEQUENT TO THE BALANCE SHEET DATE

There were no significant events subsequent to the balance sheet date which have not been disclosed in these condensed interim financial statements.

26 CHANGES IN COMPOSITION OF THE BANK

There were no significant changes in the composition of the Bank for the financial third quarter ended 30 September 2012.

27 SEGMENTAL REPORTING ON REVENUE, PROFIT AND ASSETS

Segmental reporting has not been prepared as there are no other segments other than the commercial banking segment.

There were no dividends paid or declared for the financial third quarter ended 30 September 2012.

EXPLANATORY NOTES

29 USE OF FINANCIAL INSTRUMENTS

(a) <u>Interest rate risk</u>

interest rate sensitive derivative financial instruments. As interest rates and yield curves change over time the Bank may be exposed to a loss in earnings due to the effects of interest rates on the structure of the balance sheet. Sensitivity to interest rates arises from mismatches in the repricing dates, cash flows and other characteristics of the assets and their corresponding liability funding. The tables below summarise the Bank's exposure to interest rate risks. Included in the tables are the Bank's assets and liabilities at carrying amounts, categorised by the earlier of contractual repricing or maturity dates. The off-balance sheet gap represents the net notional amounts of all

(b) Market risk

Market risk is the potential change in value caused by movement in market rates or prices. The contractual amounts stated above provide only a measure of involvement in these types of transactions and do not represent the amount subject to market risk. Exposure to market risk may be reduced through offsetting on and off-balance sheet positions. The market risk numbers as at end of the financial third quarter are reflected in Note 30 on Capital Adequacy.

(c) Credit risk

Credit risk arises from the possibility that a counter-party may be unable to meet the terms of a contract in which the Bank has a gain position. The market risk numbers as at end of the financial third quarter are reflected in Note 30 on Capital Adequacy. The credit risk amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rate or prices.

(d) Liquidity risk

Liquidity risk is the risk that the Bank is unable to meet its cash flow obligations as they fall due, such as upon the maturity of deposits and loan draw downs. Exposure to liquidity risk is reduced through constant monitoring of liquidity risk profile with maturity mismatch reports.

EXPLANATORY NOTES

29 USE OF FINANCIAL INSTRUMENTS (CONTINUED)

(e) <u>Currency risk</u>

Currency risk is the risk to earnings and value of financial instruments caused by the fluctuations in foreign exchange rates. It is managed in conjunction with market risk.

The tables below set out the Bank's exposure to currency risk. Included in the tables are the Bank's financial assets and liabilities at carrying amounts, categorised by currency but excludes deferred tax assets / liabilities and other assets / liabilities.

EXPLANATORY NOTES

30 CAPITAL ADEQUACY

The components of Tier-I and Tier-II capital are as follows:

	30.9.2012 RM'000	(Restated) <u>31.12.2011</u> RM'000
Tier-I Capital	, 555	
Share capital Statutory reserves Retained profit	135,800 126,373 225,168	135,800 126,373 225,168
Less: Deferred tax asset	487,341 	487,341
Total Tier-I capital	487,341	487,341
Tier-II Capital		
Collective assessment allowance *	729	981
Total capital base	488,070	488,322
Capital ratios		
Core capital ratio Risk-weighted capital ratio	67.46% 67.56%	115.16% 115.39%

Excludes collective assessment allowance on impaired loans restricted from Tier-II Capital of the Bank of RM24,015 (2011: RM25,903)

Pursuant to BNM's circular, "Recognition of Deferred Tax Assets ('DTA') and Treatment of DTA for RWCR Purposes" dated 8 August 2003, deferred tax income/(expense) is excluded from the computation of Tier 1 capital and deferred tax assets are excluded from the calculation of risk weighted assets.

The capital adequacy ratios of the Bank are computed in accordance with Bank Negara Malaysia's revised Risk-Weighted Capital Adequacy Framework (RWCAF-Basel II). The Bank has adopted the Standardised Approach for Credit and Market Risk, and Basic Indicator Approach for Operational Risk. The minimum regulatory capital adequacy requirement is 8% for the risk-weighted capital ratio

STATEMENT OF DECLARATION

To the best of our knowledge, the accompanying Statement of Financial Position of Bank of America Malaysia Berhad as at 30 September 2012, and the related Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flow and explanatory notes for the half-year ended on that date had been prepared from the Bank's accounting and other records and nothing has come to our attention that causes us to believe that the condensed interim financial statements are not presented fairly in all material aspects in accordance with the Malaysian Accounting Standards Board ("MASB") approved accounting standards in Malaysia for entities other than private entities and Bank Negara Malaysia Guidelines.

For and on behalf of, Bank of America Malaysia Berhad

ŎNG GUAT KEE Chief Executive Officer

3 1 OCT 2012
