This BofA Securities MiFID II Cost and Charges Disclosures document forms part of the [BofA Securities General Terms & Conditions of Business](#) available on the [BofA MiFID II Website](#).

When executing MiFID II in-scope financial instruments, the following costs and charges may apply. If a cost or charge is not listed below it can be assumed to be zero.

1 Fixed Income Commodities and Currency

Where clients are provided products or services by our Global FICC businesses, certain costs and charges may apply to those products or services. The types of costs or charges depend on the relevant service or product and the relevant market or infrastructure used to access that service or product. For each of the main service areas within our Global FICC business, we set out below an indication of the types of costs and charges that may apply.

The below is intended to provide disclosure on typical transactions. Other costs and charges may apply to your transaction. Please consult your BofA Securities Sales representative for further clarification if you require.

1.1 Mortgage products:

(a) Mortgages Origination:

- **Termination fees:** Although the majority of this business covers out-of-scope products (loans), where products are in-scope, termination fees may be charged. These fees are agreed up front in documentation where applicable.
- **Structuring fees:** Although the majority of the business covers out-of-scope products (loans), where other products are in-scope, there may be structuring fees charged. These fees are agreed up front in documentation where applicable.
- **Distribution fees:** These may apply to certain transactions and are disclosed in the transaction documentation where applicable.

(b) Mortgages Trading:

- **Performance fees:** In cases where upside is shared with a counterparty, this would be disclosed in pre-trade documentation (e.g. a side letter).

1.2 Foreign Exchange products:

- **Platform fees (ETS Fixings and Algo Execution):** Platform fees may be charged to execute transactions using BofA Securities platforms and are agreed in upfront documentation to execute transactions. For Algo Execution, this is typically done at levels hedged in the market as principal plus an agreed fee over and above the hedged price. Fixing orders are typically filled at levels published by the benchmark provider plus an agreed fee.
- **Platform fees (FX Prime Brokerage):** Platform fees may be charged as part of a pre-agreed Prime Brokerage fee which may include execution costs to execute transactions using BofA Securities platforms and are agreed in upfront documentation.
- **Mark-up or mark-down (embedded in transaction price):** When transacting an order as riskless principal mark-up will be any excess of the appropriate bid/offer. Although mark-up is not typically charged in such circumstances, there may be instances where a transaction could include a mark-up. Please check with your Sales representative if you would like further information.

1.3 Listed/Cleared Futures & Options products:

- **Broker commissions:** These may be charged to execute trades using BofA Securities platforms and are agreed in upfront documentation (via a termsheet) prior to trading. Post trade, these costs are also disclosed daily and a summary is also sent monthly.
- **Foreign Exchange costs:** These may be included in relevant trades and are agreed in upfront documentation (via a termsheet) prior to trading. Post trade, these costs are disclosed daily and a summary is also sent monthly.
- **Financing costs:** These costs are agreed in upfront documentation (via a termsheet or an interest schedule) prior to trading. Post trade, these costs are disclosed daily and a summary is also sent monthly.
- **Stamp duty and transaction taxes:** These costs may apply to certain transactions and could be passed on by BofA Securities if applicable based on tax jurisdiction. Post trade, these costs are disclosed daily and a summary is also sent monthly. Please check with your Sales representative if you would like further information.

1.4 Credit products (GCSS):

- **Mark-up or mark-down (embedded in transaction price):** When transacting an order as riskless principal mark-up will be any excess of the appropriate bid/offer. Although mark-up is not typically charged in such circumstances, there may be instances where a transaction could include a mark-up. Please check with your Sales representative if you would like further information.
- **Transaction tax:** Tax may apply to certain transactions. These taxes would be paid by the owner of the bond, if applicable, based on tax jurisdiction. Please check with your Sales representative if you would like further information.
- **Custody costs:** These may apply for certain structured transactions. Please check with your BofA Securities Sales representative if you would like further information.

Structuring fees: These may be applicable to certain structured transactions and may be embedded in the spread price, and where applicable would be disclosed in the transaction document/materials.

1.5 Commodities products:

(a) Global Commodities Index Products:

- **Mark-up or mark-down (embedded in transaction price):** When transacting an order as riskless principal mark-up will be any excess of the appropriate bid/offer. This applies when BofA Securities executes orders on a riskless principal basis in the LME business and the Global Commodities Index Products (GCIP) business. Please refer to the mark-up schedule for further clarity on mark-ups in the GCIP bullet swap business. In other parts of Commodities, mark-up is not typically charged, there may be instances where a transaction could include a mark-up. Please check with your Sales representative if you would like further information.
- **Swap fees:** These fees are agreed upfront in relevant documentation and are either embedded in the transaction price, or are charged separately. Please check with your Sales representative if you would like further information.

(b) General Commodities product disclosure:

- **Mark up embedded in transaction price:** When transacting an order as riskless principal mark-up will be any excess of the appropriate bid/offer. Although mark-up is not typically charged in such circumstances, there may be instances where a transaction could include a mark-up. Please check with your Sales representative if you would like further information.
- **Structuring fees:** These may be applicable to certain transactions and are generally embedded in the spread price. Where applicable, these fees would be disclosed in the transaction document.

1.6 Emerging Markets products:

- **Mark-up or mark-down (embedded in transaction price):** When transacting an order as riskless principal mark-up will be any excess of the appropriate bid/offer. Although mark-up is not typically charged in such circumstances, there may be instances where a transaction could include a mark-up. Please check with your Sales representative if you would like further information.
